Philosophy of Education

### 2110 PHILOSOPHY OF EDUCATION

Each child possesses unique talents, needs, and potential. Randolph Township district schools nurture, value, and respect these gifts by creating challenging opportunities that promote intellectual, academic, emotional, physical, and social growth for all learners. Students should develop life-long learning skills and positive habits of mind to encompass self-worth, ethics, individual thought, leadership, service, and citizenship. They should recognize the influence of fine, performing, and practical arts as a reflection of humanity, embrace diversity, and make positive contributions to society. The District shall attempt to realize these goals through a partnership among students, teachers, support staff, administrators, parents, and the community. The Randolph Township district schools will therefore support curricular, co-curricular/extra-curricular, and community activities designed to recognize and develop each student's talents and potential.

### 2220 ADOPTION OF COURSES

The Board of Education shall provide a comprehensive instructional program to serve the educational needs of the children of this district by the adoption of courses of study.

For purposes of this policy, a “course of study” means the planned content of a series of classes, courses, subjects, studies, or related activities.

No course of study will be taught in this district unless it has been formally adopted by the Board. The Board shall determine which units of the instructional program constitute courses of study and are thereby subject to the adoption procedures of the Board.

Each course of study approved for credit toward high school graduation shall include minimum course proficiencies. In order to satisfactorily complete a course of study, a pupil must demonstrate mastery of the established minimum level of course proficiencies. Core course proficiencies shall include, but need not be limited to, proficiencies established by the State Board of Education in the curriculum areas of mathematics; natural or physical sciences; English; social studies; foreign languages; fine, practical, and performing arts; career education; and health, safety, and physical education.

The Superintendent is responsible for the continuous evaluation of the courses of study against the educational goals of the Board and shall recommend to the Board such new or altered courses of study as are deemed to be in the best interests of the pupils of this district. The Superintendent’s recommendation will include the following information about the proposed course of study:

1. The specific objective of the course of study and the relationship of the course to the educational goals adopted by the Board;
2. The applicability of the course to pupils and an enumeration of those groups of pupils to be affected by it;
3. A description of course content, including any instructional method that departs significantly from the ordinary and is an integral part of the course of study;
4. A rationale for the course in terms of the goals of this district and a justification of the course, especially when it is proposed to take the place of an existing course of study;

### 2230 COURSE GUIDES

The Board of Education directs the preparation of a curriculum guide in order to assist teaching staff members toward the attainment of goals addressed by that course.

Each curriculum guide will contain, as appropriate to the course of study, New Jersey Core Curriculum Content Standards; objectives, concepts, and skills to be taught; attitudes and appreciations to be developed; suggested activities designed to achieve the objectives; suggested methods of instruction; performance indicators; evaluation; and a list of supplemental materials.

No teacher shall be expected to implement every suggestion made in the curriculum guide, nor shall the guide constrain a teacher from the use of ingenuity in meeting the objectives of the guide, subject to the review of the immediate supervisor.

The Superintendent shall be responsible for the preparation of curriculum guides, and shall develop a plan for such preparation that includes the participation of appropriate staff members and resource personnel; the participation of members of the community; the participation of pupils at appropriate grade levels; continuing research in instructional methods, materials, and activities; systematic review of all curriculum guides, as part of the district five-year cycle, to ensure their continuing usefulness in achieving goals set by the Board; and a system of administrative review to ensure that course guides are being followed by teaching staff members to the degree of conformity desired by the Board.

Whenever new course guides are developed or existing guides revised, copies of these additions or changes must be made available to the Board for review. The Board retains the right to reject any additions, changes, and deletions to the presently approved course guides.

Copies of all current course guides shall be kept on file in the office of the Assistant Superintendent and on the district website

Controversial Issues

### 2240 CONTROVERSIAL ISSUES

When anyone communicates in writing with a teacher or administrator objecting to the teaching of allegedly controversial material, he/she shall be referred to the Superintendent. The Superintendent may order an investigation of the charges and arrange a meeting of parties concerned, especially the school Principal, the staff member involved, and the person raising the objection. Such a meeting shall refer to the following statement of Board policy on the teaching of controversial issues:

1. A question is controversial when one or more of the proposed answers are questionable enough to a section of citizenry to arouse strong reaction. The immediate cause of this reaction may be personal conviction or interest, or allegiance to an interested group. The most critically controversial questions are those characterized by current importance and by group opinion and interest;
2. The consideration of controversial questions has a legitimate place in the work of the public schools. It is important that young people have experience with such controversial questions under circumstances which promote consideration of all pertinent factors. School treatment of such questions should promote fair and multifaceted study of these questions; it should also help the pupil develop techniques for considering such questions;
3. The handling of a controversial question in school should be free from the assumption that there is any one correct answer. Indoctrination is not the purpose; rather, the purpose is to have the pupil see as fully as possible all of the question;
4. A controversial question should be handled in an appropriate setting by a teacher prepared for such a responsibility. A pupil is better uninformed about a question than misinformed about it;
5. The decision as to whether a controversial question shall become a matter for school study should be based on the timeliness of the question, the maturity and needs of the pupil;
6. In addition to planned discussions of controversial questions, there are occasions when such a question arises unexpectedly. Good judgment should be used in handling such circumstances;
7. No individual or group can claim the right to present arguments directly to pupils in school;

1. Ensuring equal and barrier-free access to all school and classroom facilities;
2. Attaining minority representation within each school, which approximates the district's overall minority representation. Exact apportionment is not required, however, the ultimate goal is a reasonable plan achieving the greatest degree of racial balance, which is feasible and consistent with sound educational values and procedures;
3. Utilizing a State approved English language proficiency measure on an annual basis for determining the special needs and progress in learning English of language-minority pupils pursuant to N.J.A.C. 6A:15-1.3(c);
4. Utilizing bias-free multiple measures for determining the special needs of pupils with disabilities, pursuant to N.J.A.C. 6A:14-3.4;

If excluded, the pupil shall be provided with equivalent and timely instruction that may include home instruction, without prejudice or penalty.

The Board of Education shall ensure that the district's curriculum and instruction are aligned to the State's Core Curriculum Content Standards and address the elimination of discrimination by narrowing the achievement gap, by providing equity in educational programs and by providing opportunities for pupils to interact positively with others regardless of race, creed, color, national origin, ancestry, age, marital status, affectional or sexual orientation, gender, religion, disability, or socioeconomic status, by:

## RANDOLPH BOARD OF EDUCATION

PROGRAM  
2270/page 1 of 1  
Religion in the Schools

### 2270 RELIGION IN THE SCHOOLS

The Board of Education recognizes that religious belief and disbelief are matters of personal conviction rather than governmental authority and the pupils of this district are protected by the First Amendment of the United States Constitution and by Article I, Paragraph 4 of the New Jersey State Constitution from the establishment of religion in the schools. School officials will be neutral in their treatment of religion in the school district, showing neither favoritism toward nor hostility against religious expression. Accordingly, devotional exercises will be permitted in this district. The following activities will be permitted in the school district provided the activity is consistent with current United States Supreme Court decisions regarding the relationship between government and religion: prayer during instructional time; organized prayer groups and activities; religious expression and prayer in classroom assignments; student assemblies and extra-curricular events; prayer at graduation; baccalaureate ceremonies; devotional exercises; and other prayer and/or religion related activities. The school district will not permit an activity if the activity advances or inhibits any particular religious expression that is protected by the First Amendment of the United States Constitution.

The Board believes that an understanding of religions and the contributions that religion has made to the advancement of civilization is essential to the thorough education of young people and to their appreciation of a pluralistic society. To that end, the curriculum may be developed to include, as appropriate to the various ages and attainments of the pupils, instruction about the religions of the world.

The Board also acknowledges the degree to which a religious consciousness has enriched the arts, literature, music, and issues of morality. The instructional and resource materials approved for use in the schools of this district frequently contain religious references or concern moral issues that have traditionally been the focus of religious concern. That such materials may, therefore, be religious in nature shall not, by itself, bar their use by the district. The Board directs that teaching staff members employing such materials be neutral in their approach and avoid using them to advance or inhibit religion in any way.

The Board recognizes that religious traditions vary in their perceptions and doctrines regarding the natural world and its processes. The curriculum is chosen for its place in the thorough and efficient education of the children of this district, not for its conformity to religious principles. Pupils should receive unbiased instruction in the schools so that they may privately accept or reject the knowledge so gained in accordance with their own religious tenets.

Winter Holiday Activities

### 2271 WINTER HOLIDAY ACTIVITIES

The Randolph Schools shall observe the doctrine of separation of church and state in accordance with the constitution, statutes and decisional law. In a pluralistic society, public schools are places for persons of varying beliefs. Schools may neither promote nor denigrate any religion.

On the elementary level, natural opportunities arise for discussion of religious holidays while studying different cultures and communities. In the secondary curriculum, students of world history or literature have opportunities to consider the holy days of religious traditions.

Some holidays considered by many people to be secular are viewed by others as having religious overtones. Students from certain religious traditions may ask to be excused from classroom discussions or activities related to particular holidays.

Some parents and students may make requests for excusals from discussions of certain holidays even when treated from an academic perspective. If focused on a limited, specific discussion, such requests may be granted in order to strike a balance between the student's religious freedom and the school's interest in providing a well-rounded education.

Holiday programs should be devised in a manner that would serve an educational purpose for all students. Programs should compel no student to identify with a religion or belief not his/her own.

Holiday concerts in December may appropriately include music related to Christmas and Hanukkah, but religious music should not dominate. Any dramatic productions should emphasize the cultural aspects of the holidays. Nativity pageants or plays portraying the Hanukkah miracle are not appropriate in the public school setting.

While recognizing the holiday season, none of the school activities in December should have the purpose, or effect, of promoting or inhibiting religion.

#### Musical Activities

Sacred music may be sung or played as part of the academic study of music. School concerts that present a variety of selections may include religious music. Concerts should avoid programs dominated by religious music, especially when these coincide with a particular religious holiday.

Winter Holiday Activities

All holiday music programs shall be approved by a committee including the superintendent of schools, the assistant superintendent for curriculum and instruction, and the music supervisor. Upon request, interested parents may examine copies of the musical selections of all programs at the office of instruction.

### Cultural Activities

The use of art, drama or literature with religious themes also is permissible if it serves a sound educational goal in the curriculum but not if used as a vehicle for promoting religious belief.

### Instructional Use of Religious Items

The use of religious symbols, provided they are used only as examples of cultural and religious heritage, is permissible as a teaching aid or resource. Religious symbols may be displayed only on a temporary basis as part of the academic program. Students may choose to create artwork with religious symbols, but teachers should not encourage or discourage such creations.

### Holiday Decorations

The balanced use of objects and symbols representing the cultural and secular aspects of the winter holiday season is permitted. Seasonal displays should not be designed so as to give the appearance of the district endorsing any particular religion.

Common areas of the school, i.e. hallways, lobbies, cafeterias may be decorated with student produced artwork which is seasonal in nature and is displayed in a manner which is consistent with the school's impartial view of religion.

### 2312 CLASS SIZE

The Board of Education directs that the number of pupils assigned to any one class be governed by considerations of instructional quality and economy of operation.

Maximum limits shall take into account the subject matter, type of instruction, ability of pupils, availability of aides, limitations of space and use of special facilities and equipment and may be waived to accommodate the demands of a temporary increase in enrollment. If the class exceeds the upper limit, aides may be recommended and assigned by building administration to assist the teacher with the approval of the Superintendent.

The district will strive to maintain the following target ratios for all classes:

Kindergarten – Grade Two	20 to 1
Grades Three – Five	22 to 1

Acceptable ranges at the various grade levels will be as follows:

Kindergarten – Grade Two	18 to 22
Grades Three – Five	19 to 24

When a student/teacher ratio falls below the lower limit or above the upper limit of the range, administration will make necessary adjustment to bring the ratio closer to the indicated target prior to the start of the school year.

To promote accountability and planning at the local school level, building administration working with staff should develop the most efficient and effective plan using these resources. This may result in different configurations other than the self-contained classrooms in existence.

#### Introduction

Field trips have the potential to enhance student learning by providing educational experiences not available in the classroom. By extending the classroom through field trips, people, resources and sites which would not otherwise be available can be integrated into the school program. Field trips also enhance the co-curricular program of the school.

#### General Requirements

- A. Field trips shall be recommended by the Principal to the Superintendent. All field trips shall also be approved in advance by the Board of Education. Students will have equitable opportunities to go on field trips (See letter D. below).
- B. The length of time traveling, as compared to the actual time pupils spent at the site, will be evaluated before a field trip is approved.
- C. The Principal will inform parents in advance of the objectives of the trip, date of departure and return, lunch provisions and other relevant details. Written parental permission is required for participation in field trip activities.

Use of Technology

### 2360 USE OF TECHNOLOGY

The Board of Education recognizes that the use of technology in the educational process is essential as part of the schooling experience. Technology is to be viewed as a tool to enhance the learning process among other tools that are required for teachers and pupils to fully explore the curriculum. In addition, technology can be used to enhance the administration of the schools and the district. In order to provide direction and meaning to the use of technology as an instructional tool, the Board directs that the Superintendent and the teaching and support staff use technology as a regular part of the learning process in every area of the curricular area.

For purposes of this policy “technology” means the use of computers and computer peripherals, communications networks, access to databases and libraries of information and the integration of audio, video, multimedia devices and media for purposes of teaching and learning.

The Superintendent in consultation with the teaching and support staff shall recommend to the Board the acquisition of appropriate technology to best implement the curricular, instructional and administrative program of the school district. The Superintendent shall prepare a technology plan for the school district to encompass the following:

#### Curricular, Instructional and Administrative Need

The technology plan shall define the curricular, instructional and administrative need for technological equipment and media for each area of instruction and shall project the need to the extent possible for a five-year period.

#### In-service Education

The Board shall provide opportunities to participate in in-service programs for employees on all hardware or software programs to be used in the execution of educational and administrative tasks. In-service programs may be provided on or off site. The cost of tuition for in-service programs may be reimbursed by the Board.

#### Standards, Codes and References

All technology installations shall conform to the following standards, codes and references N.J.S.A. 18A, N.J.A.C. 5:23 and 6:22, BOCA National Building Code, NEMA, EIA/TIA 568 and 569 (Electronics Industry Association/Telecommunications Industry Association), LPC NFPA 78 (Lighting Protection code) IEEE 802.3 - Ethernet and 802.5 Token Ring (Institute of Electrical and Electronic Engineers), UL (Underwriter’s Laboratories), ANSI (American National Standards Institute) and ADA (Americans with Disabilities Act).

### 2361 ACCEPTABLE USE OF COMPUTER NETWORK/COMPUTERS AND RESOURCES

The Board of Education recognizes that as telecommunications and other new technologies shift the manner in which information is accessed, communicated and transferred that those changes will alter the nature of teaching and learning. Access to telecommunications will allow pupils to explore databases, libraries, Internet sites, bulletin boards and the like while exchanging information with individuals throughout the world. The Board supports access by pupils to information sources but reserves the right to limit in school use to materials appropriate to educational purposes. The Board directs the Superintendent to effect training of teaching staff members in skills appropriate to analyzing and evaluating such resources as to appropriateness for educational purposes.

The Board also recognizes that telecommunications will allow pupils access to information sources that have not been pre-screened by educators using Board approved standards. The Board therefore adopts the following standards of conduct for the use of computer networks and declares unethical, unacceptable or illegal behavior as just cause for taking disciplinary action, limiting or revoking network access privileges and/or instituting legal action.

The Board provides access to computer network/computers for educational purposes only. The Board retains the right to restrict or terminate pupil access to the computer network/computers at any time, for any reason. ### 2412 HOME INSTRUCTION DUE TO HEALTH CONDITION

The Board of Education will provide instructional services to an enrolled pupil whether a general education pupil in Kindergarten through grade twelve or a special education pupil age three to twenty-one at the pupil's home or another suitable out-of-school setting when the pupil is confined to the home or another out-of-school setting due to a temporary or chronic health condition or has a need for treatment which precludes participation in their usual education setting. These services will be provided when a pupil is determined by the school physician to need confinement at their residence or other suitable out-of-school setting and the projected need for confinement is for ten consecutive school days or fifteen cumulative school days or more during the school year.

Requests for home instruction shall include a written determination from the pupil's physician documenting the projected need for the pupil's confinement to their residence or other treatment setting for ten consecutive school days or fifteen or more cumulative school days during the school year. The written determination from the pupil's physician shall be forwarded to the school physician, who shall verify the need for home instruction.

The school district shall provide instructional services within five school days after receipt of the school physician's verification or, if verification is made prior to the pupil's confinement, during the first week of the pupil's confinement to the home or out-of-school setting.

The home or out-of-school instruction shall meet the minimum standards as required in N.J.A.C. 6A:16-10.1(c). No Child Left Behind Programs

### 2415 NO CHILD LEFT BEHIND PROGRAMS

The No Child Left Behind Act (NCLB) of 2001 is a reauthorization of the Elementary and Secondary Education Act (ESEA)/Improving America's Schools Act (IASA) 1994, providing funds to help all New Jersey's school children achieve, at a minimum, proficiency in the State standards. NCLB embodies four key principles or pillars of education reform: accountability, flexibility, choice, and methodology. The Board of Education elects to augment the instructional program of pupils by projects supported by federal funds allocated under NCLB and the district will comply with the requirements of all the programs authorized by NCLB.

The district may be eligible for several grant programs funded through NCLB, including, but not limited to, Title I through Title VI. Many of the Titles of NCLB have several parts and subparts that provide a funding source for specific purposes.

#### Application Procedure

The district will submit an annual No Child Left Behind Consolidated Formula Subgrant Application to the New Jersey Department of Education (NJDOE). The school district's application shall include all information required by the NJDOE and NCLB for the district to be considered for funding under NCLB.

#### Covered Programs

The intent of NCLB is that all children will meet State academic achievement standards to reach their potential through improved programs. The NCLB Consolidated Formula Subgrant includes the following programs:

1. Title I, Part A provides the programs and resources for disadvantaged students to meet this intent. It requires the State and the district to close the achievement gap by placing a highly qualified teacher in every classroom, improving the qualifications of paraprofessionals who work with disadvantaged students, and using instructional practices that have proven to be effective.
2. Title I, Part D serves neglected and delinquent youth in institutions, community day programs, and correctional facilities to assure they also attain high academic levels of performance.

### PROGRAM

3. Title II, Part A provides the resources for improving teacher and Principal quality and increasing the number of highly qualified teachers and Principals in classrooms and schools, thereby raising student achievement in the academic subjects. It focuses on preparing, training, and recruiting high-quality teachers and Principals and requires the State to develop plans with annual measurable objectives that will ensure all teachers teaching in core academic subjects are highly qualified by the end of the 2005-2006 school year.
4. Title II, Part D facilitates comprehensive and integrated educational technology strategies that target the specific needs of individual schools. It improves student academic achievement through the use of technology in elementary and secondary schools, while addressing the digital divide such that every student is technologically literate by the end of eighth grade. Effective integration of technology resources and systems with teacher training and curriculum development are encouraged in order to identify and showcase best practices in educational technology.
5. Title III, Part A focuses on the teaching of English to limited English proficient (LEP) children, including immigrant children and youth.
6. Title IV, Part A provides resources for fostering a safe and drug-free learning environment that supports academic achievement.
7. Title V, Part A provides a flexible source of funding to help districts in the development and implementation of various innovative reform initiatives.
8. Title VI, Part B addresses the unique needs of rural school districts.
9. Title IX covers the general provisions applicable to some/all of the programs.

Throughout NCLB, the use of solid research to improve teaching and learning as well as student behavior is required and promoted, and parent(s)/legal guardian(s) are provided with information and options to improve the educational opportunities provided for their children. The emphasis on scientifically based methodology encourages the use of teaching techniques and practices that are founded on research and proven to produce positive results.

#### Title I

The largest federal program supporting elementary and secondary education is Title I. NCLB strengthens Title I requirements for the State's assessments, accountability system, and support for school improvement. The law also establishes minimum qualifications for teachers and paraprofessionals in Title I programs.

The school district will provide the New Jersey Department of Education assurances it will provide the maximum coordination between the Title I program, the regular school program, and services provided by other programs for specialized populations. The Title I program will consider the special needs of homeless children, migrant children, children with disabilities and limited English proficient (LEP) children. Title I funds will be reserved so that migrant children who are otherwise eligible to receive Title I services, even if they arrive during the school year, are served.

Academic Standards, Academic Assessments,

M

### 2415.01 ACADEMIC STANDARDS, ACADEMIC ASSESSMENTS, AND ACCOUNTABILITY

The No Child Left Behind Act of 2001 (NCLB), a reauthorization of the Elementary and Secondary Education Act (ESEA), requires New Jersey to implement a single accountability system to include challenging academic content and academic achievement standards. The accountability requirements under NCLB were built on the foundation of the former Improving America's Schools Act (IASA).

To meet the Federal requirements, New Jersey has adopted the New Jersey Single Accountability System. State assessments in language arts literacy and mathematics are based on the New Jersey Core Curriculum Content Standards. All pupils enrolled in New Jersey public schools, plus all pupil subgroups, must meet the proficiency benchmarks to ensure the goal of 100% proficiency. Pupils must score either "proficient" or "advanced proficient" on the assessments to be counted toward meeting the benchmarks.

Schools are evaluated using adequate yearly progress (AYP) indicators. Pupil achievement is determined by grade span (Elementary School – grades three through five, Middle School – grades six through eight, and High School – grades nine through twelve) and in each content area. There are indicators that must be met (including participation and proficiency rates) plus a secondary indicator. A safe harbor calculation is applied to measure significant progress if the benchmark is missed. When a school does not meet AYP for two consecutive years in the same content area, it is designated as a "school in need of improvement."

AYP shall be calculated for all New Jersey schools under the provisions of NCLB. Schools that do not meet AYP as defined under NCLB are placed into one of the following categories. Title I schools in need of improvement must implement the sanctions for each category.

Year 1 – Early Warning: A school that does not make AYP for one year is placed into "early warning" status.

Year 2 – In Need of Improvement/School Choice: A school that does not make AYP for two consecutive years in the same content area is designated as a "school in need of improvement." Parents/legal guardians shall be promptly notified if their child's school has been designated as in need of improvement. For Title I schools certain interventions apply, including intradistrict school choice (or supplemental educational services if choice is not available) and development of a school improvement plan (Title I Unified

Plan). The district must offer the school technical assistance to address the areas that caused the school to be in need of improvement. Parents/legal guardians shall be notified of their right to request intradistrict public school choice and parents/legal guardians of eligible pupils shall be notified of the availability of supplemental educational services, if choice is not available, including the provider list Web address.

Year 3 – In Need of Improvement/Supplemental Educational Services (SES): A school that does not make AYP for three consecutive years in the same content area shall continue to be identified as a “school in need of improvement.” The Title I school must continue to offer intradistrict school choice and must also offer SES to eligible pupils. Technical assistance must continue to be offered by the district, parents must receive notification of the school’s status, and the school improvement plan (Title I Unified Plan) is updated annually. Parents/legal guardians of eligible pupils shall be notified of the availability of supplemental educational services, if choice is not available, including the provider list Web address.

The New Jersey Department of Education (NJDOE) offers school support by engaging a team of experienced professionals to conduct an extensive school review called Collaborative Assessment and Planning for Achievement (CAPA). The CAPA team interviews stakeholders and staff, reviews school and district documents, and conducts on-site observations to develop a report that contains recommendations for school improvement, which then becomes part of the Title I Unified Plan.

Year 4 – Corrective Action: A school that does not make AYP for four consecutive years in the same content area is identified as a school in corrective action. The Title I school must continue to offer intradistrict school choice and SES, notify parents of the school’s status, revise its school improvement plan (Title I Unified Plan), and receive technical assistance from the district and the NJDOE.

The district must take at least one of the following corrective actions:

1. Provide, for all relevant staff, appropriate, scientifically research-based professional development that is likely to improve academic achievement of low-performing pupils.
2. Institute a new curriculum grounded in scientifically-based research and provide appropriate professional development to support its implementation.

3. Extend the length of the school year or school day.
4. Replace the school staff who are deemed relevant to the school not making adequate progress.
5. Significantly decrease management authority at the school.
6. Restructure the internal organization of the school.
7. Appoint one or more outside experts to advise the school how to revise and strengthen the improvement plan it created while in school improvement status and how to address the specific issues underlying the school's continued inability to make AYP.

Year 5 – Planning for Restructuring: A Title I school that does not make AYP for five consecutive years in the same content area must plan to restructure. The restructuring plan is implemented at the beginning of the following school year if the school continues to miss AYP benchmarks and moves to Year 6. During the planning year, the Title I school must continue to offer intradistrict school choice and SES, notify parents of the school's status and invite parent input during the restructuring process, and receive technical assistance from the district and the NJDOE. The technical assistance design for a school being restructured emphasizes the following:

1. The importance of improving instruction by using strategies grounded in scientifically-based research so that all children in the school achieve proficiency in the core academic subjects of language arts and mathematics.
2. The importance of analyzing and applying data in decision-making.

The restructuring plan must include one of the following alternative governance systems for the school as outlined by NCLB regulations and consistent with New Jersey practice and statutes:

1. Implement any major restructuring of the school's governance that is consistent with the principles of restructuring as set forth in the No Child Left Behind Act.
2. Re-open the school as a public charter school as defined by State statute and regulation (N.J.S.A. 18A:36A-1 et seq. and N.J.A.C. 6A).

3. Replace all or most of the school staff, which may include the Principal, who are relevant to the school's inability to make adequate progress (consistent with existing contractual provisions and applicable statutory protections in Title 18A).

**Year 6 – Restructuring-1:** A Title I school that does not make AYP for six consecutive years in the same content area must implement the approved restructuring plan. The Title I school must continue to offer intradistrict school choice and SES, notify parents of the school's status and invite parent input and support during the implementation process, and receive technical assistance from the district and the NJDOE. Technical assistance is critical to help school staff remain focused on increasing pupil achievement while the school is adjusting to potentially radical changes in its administration and governance structures. A CAPA visit will occur at the school to determine the fidelity of implementation of the restructuring plans and to review the governance structure of the school.

**Year 7 (and over) – Restructuring-2 (and over):** If the school has not made AYP for seven or more consecutive years, the NJDOE will meet with school and district administrators to continually review implementation of the restructuring plan/Title I Unified Plan. Benchmark meetings with NJDOE staff, the school, and the district will occur twice a year to assess and support implementation of the school improvement plan.

**Removal from Early Warning/Improvement Status:** To be removed from early warning or improvement status, the school must make AYP for two consecutive years in the content area that caused the school to go into status, providing the school makes AYP in the other content areas. The first year of making AYP is a “hold year” and the school does not progress to the next sanction level, but must continue to implement current interventions. If the school does not make AYP the year following “hold,” the school goes back into improvement status at the level prior to the hold year.

### 2415.03 HIGHLY QUALIFIED TEACHERS

The No Child Left Behind Act (NCLB) requires all teachers be or become highly qualified in the core academic content area(s) they teach in accordance with the United States Department of Education and the New Jersey Department of Education highly qualified teacher requirements.

Teachers who have achieved highly qualified status retain highly qualified status permanently for the teaching assignment designated on the approved highly qualified teacher forms. No teacher providing direct instruction in core content areas is grandfathered or exempt from this process.

The district shall maintain the appropriate highly qualified documentation for all teachers who provide direct instruction in core content areas. When a teacher changes teaching assignments, which requires different content expertise, additional highly qualified teacher forms must be completed and kept on file within the district. Highly qualified teacher documentation should be completed for all new teachers and for those with new teaching assignments at the beginning of each school year.

When a teacher obtains employment in a new school district, the new district must contact the previous place of employment to have the teacher's official highly qualified teacher forms sent to the new district. A teacher hired from another State must hold New Jersey certification and must meet New Jersey's highly qualified teacher requirements. Out-of-State teachers may provide documentation to support their highly qualified teacher status from the previous State in which they taught.

All Title I schools must send out a Right-to-Know letter in the beginning of every school year informing parent(s) or legal guardian(s) that they have the right to know the qualifications of their child's teacher. The letter should be sent by all Title I and non-Title I districts. In addition, in all Title I schools, the parent(s) or legal guardian(s) of pupils whose teacher is not yet highly qualified must be notified. Copies of these letters must be kept on file in the school.

### 2415.04 TITLE I – DISTRICT-WIDE PARENTAL INVOLVEMENT

#### GENERAL EXPECTATIONS

The school district will put into operation programs, activities, and procedures for the involvement of parents in all of its schools with Title I, Part A programs, consistent with Section 1118 of the Elementary and Secondary Education Act (ESEA). Those programs, activities, and procedures will be planned and operated with meaningful consultation with parents of participating children.

Consistent with Section 1118, the school district will work with its schools to ensure that the required school-level parental involvement policies meet the requirements of Section 1118(b) of the ESEA, and each include, as a component, a school-parent compact consistent with Section 1118(d) of the ESEA.

The school district will incorporate this District-Wide Parental Involvement Policy into its school district's plan developed under Section 1112 of the ESEA.

In carrying out the Title I, Part A parental involvement requirements, to the extent practicable, the school district and its schools will provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports required under Section 1111 of the ESEA in an understandable and uniform format, including alternative formats upon request, and to the extent practicable, in a language parents understand.

If the school district's plan for Title I, Part A, developed under Section 1112 of the ESEA, is not satisfactory to the parents of participating children, the school district will submit any parent comments with the plan when the school district submits the plan to the New Jersey Department of Education.

In the event the school district is required to reserve and spend at least one percent of the district's Title I, Part A allocation, the school district will involve the parents of children served in Title I, Part A schools in decisions about how these funds will be spent and will ensure that not less than ninety-five percent of the one percent reserved goes directly to the schools.

The school district will be governed by the following statutory definition of parental involvement, and expects Title I schools in the district will carry out programs, activities, and procedures in accordance with this definition:

### 2415.06 UNSAFE SCHOOL CHOICE OPTION

The Unsafe School Choice Option (USCO) provision of The No Child Left Behind Act of 2001 (NCLB) §9532 contains two provisions that apply to school districts that receive funds under NCLB: Provision I - Persistently Dangerous Schools and Provision II - Victims of Violent Criminal Offenses.

Effective the beginning of each school year, school districts receiving NCLB funds must be prepared to complete the transfer of pupils who choose to exercise Provision I and Provision II of NCLB and this Unsafe School Choice Option Policy. Compliance with the Policy is a condition of receiving funds under any and all titles under NCLB. The Superintendent is required to certify compliance with this USCO Policy to the New Jersey Department of Education (NJDOE) in the application for NCLB funds.

#### USCO Policy Provision I - Persistently Dangerous Schools (PDS)

##### 1. Criteria for Determining Persistently Dangerous Schools.

A persistently dangerous school is a public elementary or secondary school building (except for Regional Day Schools, Educational Services Commissions and Special Services School Districts) that meets the objective criteria determined by the New Jersey Department of Education (NJDOE) for three consecutive years and is part of a school district that receives funds under NCLB. The NJDOE will use the most current available data from the Electronic Violence and Vandalism Reporting System (EVVRS) to identify persistently dangerous schools on or before July 31 of each year, in compliance with federal regulations (68 FR 16789).

##### 2. Procedures and Guidelines for Schools Determined to be Persistently Dangerous.

Once the district receives notification a school is identified as persistently dangerous, the district must inform all parents of enrolled pupils in the school of the designation within fifteen calendar days of the notice and offer them the option for their children to transfer to a safe public school within the district by the beginning of the respective school year. The district must complete all transfers by the beginning of the school year following the July notification.

# POLICY

## RANDOLPH BOARD OF EDUCATION

PROGRAM  
2415.06/page 2 of 11  
Unsafe School Choice Option

Pupils are not required to accept the transfer option, but they must be afforded the opportunity to do so. Parental notice regarding the status of the school and the offer to transfer pupils should be made simultaneously. Parents of enrolled pupils must be notified of the persistently dangerous designation whether or not there is another school within the district for the transferring pupils.

To the extent possible, the district will allow transferring pupils to transfer to schools that are making adequate yearly progress in accordance with NCLB and have not been identified as being in need of school improvement, corrective action or restructuring. The district will take into account the needs and preferences of the affected pupils and parents.

### 3. Corrective Action Plan for a School Identified as Persistently Dangerous.

If a school in the district is identified as persistently dangerous, the district will submit to the NJDOE, on or before August 25, documentation of compliance with the parent notification requirement and actions taken to complete the transfer arrangements for all pupils exercising the option by the first day of the school year. The district will also develop and submit for approval a corrective action plan to the NJDOE on or before September 30 of the same year, which will apply to the respective school year. The corrective action plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide schools with guidance for their corrective action plans, as well as monitor the school district's timely completion of the approved plans.

In the spring of each following year, the NJDOE will re-evaluate the status of a school identified as persistently dangerous. The NJDOE will review the school's progress towards completing their corrective action plan and compare the current year's incidents of violence, as reported on the EVVRS, to the criteria for determining persistently dangerous schools (PDS). A school identified as maintaining the persistently dangerous designation will be notified by the NJDOE on or before July 31 of the respective year and will be required to submit for approval a revised corrective action plan by August 25 of that year, which will apply to the respective school year. The school district must inform all parents of enrolled pupils in the school of the designation within fifteen calendar days of the notice and offer them the option for their children to transfer to a safe public school by the beginning of the respective school year.

A school no longer designated persistently dangerous will be notified on or before July 31 of the respective year. The persistently dangerous designation will be removed after one or more years contingent upon successful fulfillment of the criteria for removal, as determined by and in accordance with guidance provided by the NJDOE.

#### 4. Procedures and Guidelines for Early Warning of Schools.

Effective in 2004, if a school meets the criteria set forth in this Policy for two consecutive years, the district will be notified of their pattern of offenses on or before August 15 of each year. If notified, the district will develop and submit to the NJDOE for approval a corrective action plan on or before September 30 of the same year, which will apply to the respective school year. The corrective action plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide the school with guidance for their corrective action plan, as well as monitor the school's timely completion of the approved plan. This school shall become a top priority for intensified district support for research-based programs and technical assistance. A school receiving an "early warning" notice is not required to provide the transfer option to pupils.

In the spring of each following year, the NJDOE will reevaluate the school's progress towards completing their corrective action plan and compare the current year's incidents of violence, as reported on the EVVRS, to the criteria for determining persistently dangerous schools. Schools will be notified of their status on or before July 31 of the respective year.

A school that has successfully completed their Corrective Action Plan and reported violent incidents that no longer meet the Criteria for Determining Persistently Dangerous Schools for one school year (the year in which the corrective action plan was in effect) will no longer be required to submit a Corrective Action Plan.

A school that does not successfully complete their Corrective Action Plan and that meets the criteria set forth in this Policy for a third consecutive year will be designated as persistently dangerous and will be required to submit for approval a revised Corrective Action Plan on or before September 30 of that year, which will apply to the respective school year. The district will also provide the transfer option to pupils in the school designated as persistently dangerous.

5. Schools Not Receiving NCLB Funds, but Meeting the Criteria for PDS.

School buildings and districts that do receive federal funds under NCLB, but meet any one of the criteria for persistently dangerous schools, will be contacted by the NJDOE and be required to develop and submit for approval a Corrective Action Plan on or before September 30 of the respective year. The Corrective Action Plan must be completed in the format provided by the NJDOE and describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide the school guidance for their Corrective Action Plan, as well as monitor the school's timely completion of the approved plan.

### USCO Policy Provision II – Victims of Violent Criminal Offenses

The Victim of Violent Criminal Offenses provision of NCLB requires a pupil who becomes a victim of a violent criminal offense, as determined by State law, while in or on the grounds of a public elementary or secondary school that the pupil attends, be allowed to attend a safe public elementary or secondary school within the district, including a public charter school.

The Superintendent will consult with the Board attorney and communicate with designated local and/or county law enforcement authorities, per the provisions of the *Uniform State Memorandum of Agreement Between Education and Law Enforcement Officials and N.J.A.C. 6A:16-6.2(b)12*, on questions and issues that arise in the implementation of the individual victims of violent criminal offenses section of this Policy.

1. Criteria for Determining Victims of Violent Criminal Offenses

The following criteria must be used to determine when an enrolled pupil has become a victim of a violent criminal offense while in or on the grounds of a public elementary or secondary school that the pupil attends. These criteria only apply to a pupil who has become a victim of one or more of the violent criminal offenses enumerated below:

A pupil is considered a victim of a violent criminal offense when:

- a. A referral has been made to law enforcement officials for suspicion that one of the violent criminal offenses enumerated below has occurred; and

- (4) The pre-existence of a restraining order against the perpetrator(s) of the violent crime.

### 2. Procedures and Guidelines

Effective the first day of each school year beginning in 2003, the district must be prepared to begin the transfer of any pupil who chooses to exercise the unsafe school choice option provision. The district must offer, within ten calendar days, an opportunity to transfer to a safe public school within the district to any pupil who has become a victim of a violent criminal offense while in or on the grounds of a public school that the pupil attends. While the pupil must be offered the opportunity to transfer, the pupil may elect to remain at the school.

To the extent possible, the district will allow any transferring pupil to transfer to a school that is making adequate yearly progress in accordance with NCLB and has not been identified as being in need of school improvement, corrective action or restructuring. The district will take into account the needs and preferences of the affected pupil and his or her parent(s). Transfers must occur within thirty days of the determination that the pupil was a victim of a violent criminal offense.

### 3. Violent Criminal Offenses

The violent criminal offenses under New Jersey statutes that apply to the individual victim provision are identified and explained below. The offenses apply to completed offenses, as well as threats and attempts to commit the offenses. The offenses and attempts to commit the offenses apply only when they occur in or on the grounds of a school that the pupil attends. The offenses apply whether they occur wholly or in part in or on the grounds of a school that the pupil attends.

The offenses apply only to acts or attempts that are directed at a person (victim) or a group of specified individuals (victims), rather than acts that indiscriminately affect the entire school population or non-specified individuals or groups. For the purposes of this Unsafe School Choice Option Policy, the term “victim” shall not include a pupil who purposely, knowingly or recklessly provokes the conduct constituting the criminal incident against him or her.

#### 4. Applicable Violent Criminal Offenses

Below is a description of each applicable violent criminal offense that is based upon New Jersey statutes and references to statutory citations that provide complete explanations of each designated offense. The descriptions provided below are not intended to be a complete explanation of each offense or a substitute for the actual provisions of the authorizing statutes. Instead, the descriptions are provided as an aid in facilitating understanding of the general intent and practical applications of the violent criminal offenses that pertain to this Unsafe School Choice Option Policy.

- a. Homicide [N.J.S.A. 2C:11-2] - A person is a victim of a homicide when he or she is the child, sibling or other relative of a decedent, resulting from someone purposely, knowingly or recklessly causing the death of the pupil’s parent, sibling or relative in or on school grounds.

causing the victim to believe the immediacy of the threat and the likelihood that it will be carried out. The definition of terroristic threat applies to N.J.S.A. 2C:12-3(a) insofar as the threat was directed at a person (victim) or a group of specified individuals (victims).

### Miscellaneous Provisions of USCO

1. Transfer Time Period – Persistently Dangerous Schools

The transfer will be temporary and will be in effect as long as the pupil's original school is identified as persistently dangerous.

2. Charter School Transfer Option

While NCLB permits affected pupils to be afforded the opportunity to attend a public charter school, in addition to a safe public elementary school or secondary school within the school district, the application of this provision in New Jersey is limited. Transfers to a charter school can only occur as a part of the charter school's "equal opportunity" selection process and among charter schools administered under the same managing authority (i.e., charter schools within the charter school district).

# POLICY

## RANDOLPH BOARD OF EDUCATION

### PROGRAM

2415.06/page 10 of 11

Unsafe School Choice Option

Since charter schools in New Jersey are considered public LEA's, pursuant to N.J.S.A. 18A:36A-3, operated independently of a local board of education, transfers may only take place among charter schools within the LEA. Therefore, pupils may be permitted to transfer to another charter school that is administered under the same managing authority of the charter school, but are not permitted to transfer to a school in the local public school district administered by a local board of education.

However, pursuant to N.J.S.A. 18A:36A-7, a charter school must be open to all pupils on a space available basis and may not discriminate in its admission policies or practices (although it may establish reasonable criteria to evaluate prospective pupils), and in accordance with N.J.S.A. 18A:36A-8, if there are more applications to enroll in the charter school than there are spaces available, the charter school must select pupils to attend using a random selection process for enrollment.

### 3. Funding Sources for USCO

The Unsafe School Choice Option law does not authorize resources specifically to help cover USCO costs. However, under certain circumstances Federal funds may be used. For example, funds under SDFSCA (Title IV, Part A of the NCLB) may be used to establish safe zones of passage to and from school to ensure that pupils travel safely on their way to school and on their way home [Section 4115(b)(2)(E)(v)]. In addition, SDFSCA funds may be used to help cover costs such as tuition or transportation related to the Unsafe School Choice Option or expansion of public school choice [Section 5121(8) and 5131(12 and (25))].

### 4. Special Education Pupils

The district will provide transferred special education pupils with the program required by the pupil's Individualized Education Program (IEP).

### 5. Transfer Schools

In the event there is not another school within the school district for a transferring pupil, the district is not required to transfer the pupil to a school outside the school district.

Under the federal regulations (68 FR 16789), this Policy only applies to offenses that occur in the 2003–2004 school year and thereafter. Beginning with the 2004–2005 school year, the district must provide the transfer option to victims of violent criminal offenses that occurred in the previous school year, if the determination that the pupil was a victim was made thirty days or fewer before the end of the school year.

Unsafe School Choice Option

The district will use the school choice option as one response to incidents of victimization. Additionally, the district will develop and implement appropriate strategies for addressing the circumstances that contribute to or support victimization, as well as consistently and proactively manage individuals who have victimized pupils. The district will promote the importance of school safety and respond to the needs of pupils and staff. Pursuant to the law, the district will provide an opportunity for pupils, parents and school district and law enforcement personnel to discuss methods for keeping schools safe from violence; to create school safety plans; and to recognize pupils in need of help. The district will organize activities to prevent school violence, including, but not limited to, age-appropriate opportunities for pupil discussion on conflict resolution, issues of pupil diversity and tolerance. Law enforcement personnel will be invited to join members of the teaching staff in the discussions. Programs shall also be provided for school district employees that are designated to help school district employees recognize warning signs of school violence and to instruct school district employees on recommended conduct during an incident of school violence.

N.J.S.A. 18A:17-46 requires a public hearing in the third week in October of each year for the Superintendent to report to the Board all acts of violence and vandalism that occurred in the district during the previous school year. The public hearing shall be transcribed and kept on file in the Board of Education Office. The transcript shall be made available to the public upon request. The Board must also file the transcript with the NJDOE for review.

### 2422 HEALTH EDUCATION

The Board of Education will provide a comprehensive health education program aligned with the New Jersey Department of Education Core Curriculum Content Standards. This program will be a coordinated sequential curriculum at all grade levels, with instructional units appropriate to the age, growth and development, and maturity of pupils.

The Superintendent will develop and recommend to the Board a program of health education designed for pupils to master the Cumulative Progress Indicators of the Department of Education's Comprehensive Health Education and Physical Education Core Curriculum Content Standards.

#### Staffing

Except as provided below for human sexuality and family life education, courses in health education will be taught by teachers whose certification qualifies them to teach health education. Teachers of the human sexuality and family life, substance use and abuse, and HIV prevention programs will be offered specific in-service training.

### Human Sexuality and Family Life Education

All pupils will learn the biological, cultural, and psychological aspects of human sexuality and family life. The Board will adopt a coordinated, sequential human sexuality and family life education program aligned with the New Jersey Department of Education's Core Curriculum Content Standards. Any education that is given as part of any planned course, curriculum or other instructional program and that is intended to impart information or promote discussion or understanding in regard to human sexual behavior, sexual feelings and values, human sexuality and reproduction, pregnancy avoidance or termination, HIV infection or sexually transmitted diseases, and any materials including, but not limited, to handouts, speakers, notes or audiovisuals presented on school property concerning methods for the prevention of acquired immune deficiency syndrome (HIV/AIDS), other sexually transmitted diseases and of avoiding pregnancy, will stress that abstinence from sexual activity is the only completely reliable means of eliminating the sexual transmission of HIV/AIDS and other sexually transmitted diseases and of avoiding pregnancy.

The district will include in its human sexuality and family life curriculum instruction on reasons, skills and strategies for remaining or becoming abstinent from sexual activity. Any instruction concerning the use of contraceptives or prophylactics, such as condoms, will also include information on their failure rates for preventing pregnancy, HIV and other sexually transmitted diseases in actual use among adolescent populations and shall clearly explain the difference between risk reduction through the use of such devices and risk elimination through abstinence. In addition, the human sexuality and family life curriculum will stress the importance of avoiding intravenous drug use.

A copy of the complete district human sexuality and family life education curriculum and all instructional materials shall be available for public inspection in each school in the district prior to its use in any classroom. The parent(s) or legal guardian(s) of each pupil enrolled in the program shall receive annually an outline of the curriculum and a list of instructional materials for that pupil's grade along with notice of the availability for review of the complete curriculum and all materials.

The human sexuality and family life program may be taught by district personnel certified to teach biology, comprehensive science, elementary grades, health, health and physical education, home economics, nursery school, psychology, or special education classes, and the school nurse. The program may utilize the contributions of such community resource persons as parent(s) or legal guardian(s), physicians, the clergy, attorneys, school social workers, school psychologists, and law enforcement personnel. ## 2423 BILINGUAL AND ESL EDUCATION

The Board of Education will provide programs of bilingual education, English as a second language (ESL), and English language services for pupils of Limited English Proficiency (LEP) as required by law and rules of the State Board of Education. Pupils of LEP are those pupils whose native language is other than English and who have sufficient difficulty speaking, reading, writing, or understanding the English language as measured by an English language proficiency test, so as to be denied the opportunity to learn successfully in the classrooms where the language of instruction is English.

### Identification of LEP Pupils

The Board will conduct a screening process to determine the native language of each pupil at the time of enrollment in the school district. A census shall be maintained of all pupils whose native language is other than English. The English language proficiency of each pupil whose native language is not English shall be determined by a screening process that includes the administration of a New Jersey Department of Education approved English language proficiency test, an assessment of the pupil's level of reading in English, a review of the pupil's previous academic performance, results of standardized tests in English, and a review of the input of teaching staff members responsible for the educational program of the limited English proficient pupils.

### Program Implementation

The district shall provide the following programs:

1. An English language services program whenever there are one or more, but fewer than ten LEP pupils enrolled within the schools of the district. English language services shall be in addition to the regular school program;
2. An ESL program whenever there are ten or more LEP pupils enrolled within the schools of the district; and
3. A bilingual program whenever there are twenty or more LEP pupils in any one-language classification. Where the age range, grade span, and/or geographical location of eligible pupils makes a full-time bilingual program impractical, the Board may offer an instructional program alternative, provided that program has been approved or a waiver for the alternative program has been requested and approval has been granted by the Department of Education. The Board may establish a program in bilingual education for any language classification with fewer than twenty pupils.

### Bilingual, ESL, and English Language Services Program Enrollment, Assessment, Exit, and Re-entry

Pupils enrolled in a bilingual, ESL, or English language services program shall be assessed annually with a New Jersey Department of Education approved English language proficiency test to determine their progress in achieving English language proficiency goals and readiness for exiting the program. LEP pupils enrolled in a bilingual, ESL, or English language services program shall be placed in a monolingual English Program when they have demonstrated readiness to function successfully in the English-only program. This process shall be initiated by the pupil's level of English proficiency as measured by a New Jersey Department of Education established standard on an English language proficiency test, and the readiness of the pupil shall be further assessed on the basis of multiple indicators which shall, at a minimum, include classroom performance, the pupil's reading level in English, the judgment of the teaching staff member or members responsible for the education program of the pupil, and performance on achievement tests in English.

In accordance with provisions of N.J.S.A. 18A:35-22.1, a parent(s) or legal guardian(s) may remove a pupil who is enrolled in a bilingual education program at any time; except that during the first three years of a pupil's participation in a bilingual education program, parent(s) or legal guardian(s) may only remove the pupil at the end of each school year. If during the first three years of a pupil's participation in a bilingual education program, a parent(s) or legal guardian(s) wishes to remove the pupil prior to the end of each school year, the removal must be approved by the Executive County Superintendent of Schools. The parent(s) or legal guardian(s) may appeal the Executive County Superintendent's decision to the Commissioner of Education.

Newly exited pupils who are not progressing in the mainstream English program may be considered for re-entry to bilingual and ESL programs in accordance with the provisions of N.J.A.C. 6A:15-1.10(e)1 through (e)5.

When the exit review process is completed, the pupil's parent(s) or legal guardian(s) shall be informed by mail of the placement determination. A parent(s) or legal guardian(s), or teaching staff member who disagrees with the proposed placement may appeal the decision in writing to the World Language/ESL Supervisor, who will provide a written explanation for the decision within five working days. The complainant may appeal this decision in writing to the Board. The Board will review the appeal and respond in writing within forty-five calendar days. A complainant not satisfied with the Board's explanation may appeal to the Commissioner of Education.

### 2425 PHYSICAL EDUCATION

The Board of Education recognizes the value of physical activity in the development and maintenance of sound physical and mental health. Accordingly, the Board directs the establishment, in accordance with law, and the New Jersey Core Curriculum Content Standards of a program of physical education and the enrollment therein of every pupil in attendance in the schools of this district, insofar as each is physically capable of participation. Each course will provide pupils with a regimen of physical exercise and activity, assist pupils in the development of physical skills and achievements, encourage pupils in a spirit of sharing and cooperation, and instill in pupils a life-long appreciation for physical activity. The successive courses of physical education will be so designed as to provide pupils with exposure to a variety of athletic and physical activities.

### 2428.1 STANDARDS-BASED INSTRUCTIONAL PRIORITIES

#### Standards-Based Instruction

The school district has implemented a coherent curriculum for all pupils, including English language learners (ELLs), gifted and talented pupils, and pupils with disabilities, that is content-rich and aligned to the Core Curriculum Content Standards (CCCS). The curriculum guides instruction to ensure every pupil masters the CCCS.

Instruction is designed to engage all pupils and modified based on pupil performance. The curriculum includes: interdisciplinary connections throughout; integration of 21st century skills; a pacing guide; a list of instructional materials including various levels of text at each grade; benchmark assessments; and will include modifications for special education pupils, English language learners in accordance with N.J.A.C. 6A:15, and gifted pupils.

The school district shall collect and analyze pupil achievement data by subgroups (such as economically disadvantaged, race and ethnicity, pupils with disabilities, English language learners) and shall make educational decisions based on such data.

The school district shall:

1. Transmit required pupil, faculty, school, and school district data to New Jersey Standards Measurement and Resources for Teaching (NJ SMART) on a schedule and in a form specified by the Department of Education;
2. Utilize the Randolph Inform Data System and its data query resources to track pupil progress year-to-year and school-to-school and to identify continuously enrolled pupils by school and school district;
3. Ensure teachers, school administrators, and central office supervisors receive training in the Randolph Pearson Inform Data System and its data query resources;
4. Analyze assessments of pupil progress in relation to curricular benchmarks and the results of State and non-State year-end tests reported by subgroups (such as economically disadvantaged, race and ethnicity, pupils with disabilities, and English language learners).

### 2430 CO-CURRICULAR ACTIVITIES

The Board of Education believes that the goals and objectives of this district are best achieved by a diversity of learning experiences, some of which are more appropriately conducted outside the regular instructional program of the school. The purpose of such co-curricular activities shall be to develop leadership capacities and good organizational skills, to aid in the socialization of pupils, and to enable pupils to explore a wider range of individual interests than might be available in the regular curricular program.

The Board shall make school facilities, supplies, and equipment available and assign staff members for the support of a program of co-curricular activities for pupils in grades two through twelve. The Board shall maintain the program of co-curricular activities and a fee may be charged to participating pupils. Pupils may be required to assume all or part of the costs of travel and attendance at co-curricular events and trips.

For purposes of this policy, co-curricular activities are those activities conducted on or off school premises by clubs, associations, and organizations of pupils sponsored by the Board and do not include athletic competitions and practices. Co-curricular activities must be related to the curriculum but are not offered for credit toward promotion or graduation and are ordinarily conducted wholly or partly outside the regular school day.

No co-curricular activity shall be considered to be under the sponsorship of this Board unless it has been approved by the Board on recommendation of the Superintendent.

Pupils shall be fully informed of the co-curricular activities available to them and of the eligibility standards established for participation in co-curricular activities. Co-curricular activities shall be available to all pupils who voluntarily elect to participate.

The Board, at its discretion, will permit pupils who reside in this district and who are not enrolled in the public school to participate in noncompetitive co-curricular activities on a space available basis. Participants will be permitted only on written application and the applicant's assurances that the pupil agrees to be bound by the policies, rules, and regulations of this district.

### 2431 ATHLETIC COMPETITION

The program of athletic competition includes all athletic lettered competitions.

#### Eligibility Standards

A student who wishes to participate in athletic competition must submit, on a form provided by the district, the signed consent of his/her parent(s) or legal guardian(s). The consent of the parent(s) or legal guardian(s) of a student who wishes to participate in interscholastic athletics must include an acknowledgment of the physical hazards that may be encountered in the sport.

Student participation in athletic competition shall be governed by the following eligibility standards:

#### High School

##### Fall and Winter Sports

To be eligible for athletic competition during the first semester (September 1 to January 31) of the 10th grade or higher, or the second year of attendance in the secondary school or beyond, a student must have passed 27.5 credits. The Randolph Board of Education, however, requires 30 credits per year for eligibility. If a student does not meet the eligibility requirements, he or she may be placed on probation. This is at the discretion of the Principal and depends on the student's total accumulated credits.

##### Spring Sports

As per the NJSIAA to be eligible for athletic competition during the second semester (February 1 to June 30) of the 9th grade or higher, a student must have passed 13.75 credits. The Randolph Board of Education however requires that 15 credits have been earned in the first semester. If a student does not meet the eligibility requirements, he or she may be placed on probation. This is at the discretion of the Principal and depends on the student's total accumulated credits.

OR

A student in grade ten (10), eleven (11), or twelve (12) who in the previous school year earned twenty-five (25) percent of the total number of credits required by the State for graduation is eligible for participation in sports in the fall and winter seasons. A student in any grade must maintain a satisfactory record of attendance to be eligible for participation in sports. No student who has an unexcused absence for a school day may participate in an athletic competition scheduled for the afternoon or evening of that school day.

Notice of these eligibility requirements shall be given to students.

### Health Requirements

Good physical condition, freedom from injury, and full recovery from illness or injury are prerequisites to participation in athletic competition and practice for such competition. HIV status shall not be screened as a part of athletic physicals or reported in school health records.

An examination of each candidate for a school athletic squad or team shall be conducted within three hundred sixty five (365) days prior to the first practice session with examinations being conducted at the medical home or school physician of the student.

The medical examination shall be conducted in accordance with N.J.S.A 6A:16-2.2(h) 1 and 2 and Regulation 2431.2. The medical report shall include a determination concerning the student's participation on an athletic team or squad from the examining physician, nurse practitioner/clinical nurse specialist, or physician's assistant. The medical report shall be provided to the school physician if the school physician did not provide the medical examination.

If the student's medical examination was completed more than sixty (60) days prior to the first practice session, the student must provide a health history update of medical problems experienced since the last medical examination in accordance with N.J.A.C. 6A:16-2.2(h)4. This health history must be completed and signed by the parent(s) or legal guardian(s).

The school district will provide written notification to the parent(s) or legal guardian(s), signed by the school physician, stating approval of the student's participation in the athletics, based solely on the medical report, or the written reasons for the school physician's disapproval of the student's participation. The school physician's signature on the notification indicates the medical report complies with the requirements of N.J.A.C. 6A:16-2.2(h) 5.

The health findings of this medical examination shall be maintained as part of the student's health record.

Therefore, the unlawful possession or unlawful use of any controlled substance, which includes steroids, alcohol or tobacco in any form by a student of Randolph High School who is a member of any Co/Extra-Curricular activity or team during the season(s) of that activity or team is prohibited and shall result in the penalties set forth in this policy.

#### Scope

This policy applies to all sports teams as well as to such activities as band, student council, debate (forensics), dramatic production, senior leaders and any other group which either competes on behalf of or in any way represents Randolph High School. It applies to the entire time such a group is "in season" whether that season is a conventional one (e.g. established for athletes by the NJSIAA) or a broader one (student council) for the academic year. This policy does not apply outside of the school year except for the period of time before school is in session (in August) when athletes are permitted to practice for fall sports by the NJSIAA and when organizations such as the marching band practice for fall activities. This policy does not apply to religious observances.

#### Investigation

All reports of alleged violations of this policy are to be made to the Randolph High School Principal.

Upon receiving such an allegation, the Principal will notify the student(s) and the student(s) parent(s)/guardian(s), then will convene a committee (the review committee) of her/himself, the student assistance counselor, one coach or one club advisor and one other teacher for the purpose of reviewing the allegation and advising the Principal on its validity.

Upon reaching a decision, the Principal will notify the student(s) involved and her/his parents immediately.

Reports of alleged violations of the Co/Extra-Curricular Rules policy must be made within thirty (30) days of the violation.

### Consequences of Policy Violation

The following consequences are cumulative over the student's high school career:

For the first (1st) violation of this policy, a student will be prohibited from representing Randolph High School for a period of time to be determined by the high school Principal upon the advice of the review committee. The recommended penalty for the first offence: one (1) week suspension from the athletic/co/extra-curricular activities. In addition, the student will be required to report to the student assistance counselor for at least two sessions to be scheduled at the counselor's convenience.

During the time of the student's removal from representing the high school, the student will be required to continue meeting/practicing with her/his team or organization. Failure to do so will result in the immediate removal of the student from the team or organization.

For a second (2nd) violation of this policy, a student will be prohibited from representing Randolph High School for a longer period of time - again to be determined by the high school Principal upon the advice of the review committee. The recommended penalty for the second offence: two (2) weeks suspension from the athletic/co/extra-curricular activities. In addition, the student will be required to meet with the student assistance counselor weekly for a period of at least six (6) weeks.

During the time of the student's removal from representing the high school, the student will be required to continue meeting/practicing with her/his team or organization. Failure to do so will result in the immediate removal of the student from the team or organization.

For a third (3rd) violation of this policy, a student will be immediately removed from the team or organization in question and will be prohibited from participating in any other "representative" group from Randolph High School for the remainder of that school year. The student will also be required to meet with her/his parents and the student assistance counselor for the purpose of developing a plan for treating the identified substance abuse issue. This plan must be approved by the high school Principal and is to be closely monitored by the student assistance counselor.

### 2431.2 ATHLETIC TRAINING RULES POLICY

#### Purpose

Participation in the Randolph School District's sports program is an honor and a privilege, and the responsibilities of student athletes are different from those of other students. Therefore, all students who participate in athletics are required to adhere to athletic training rules imposed by the school district. Adherence to the training rules helps ensure that all student athletes are in top physical condition and minimizes the potential for injury to themselves and others. Therefore, the possession or use of any controlled substance, including, steroids, alcohol or tobacco products by a student athlete at any time, during the season, whether it occurs on or off school property, is prohibited and shall result in the penalties set forth in this policy.

The Randolph School District expects its student athletes to have such attributes as dedication, self-sacrifice, and the sincere desire to be the best athletes possible. These athletes should have great pride in their school: the athletic program, and above all, in themselves. They should have a thorough understanding of the rules, regulations, requirements, and standards that guide our athletic program.

It is the intent of this policy to protect our student athletes and to deter conduct that impairs their ability to compete effectively in athletics. By making responsible choices, it is up to each team member to remain a student athlete:

#### Athletic Training Rules

1. A team member is prohibited from the use and/or possession of alcoholic beverages or controlled or dangerous substances, including steroids as defined by New Jersey law.
2. A team member is prohibited from the use and/or possession of any tobacco product (including spit tobacco).
3. This policy applies only to the official N.J.S.I.A.A. "In-Season" parameters for Fall, Winter and Spring sports.

#### Investigation

The Principal will investigate the allegations and determine the course of action. The Principal will consider all objective evidence to reach a determination. The parents and the student athlete will be notified of the decision immediately.

Reports of alleged violations of the Athletic Training Rules Policy must be reported within 30 days of the alleged violation:

### Penalties for Violation of the Rules

If an athlete violates the Athletic Training Rules Policy during a sports season in which he/she is participating, the athlete will be suspended from that team for the remainder of that season.

Any athlete found in violation of the Athletic Training Rules Policy will be referred to the student assistance program and a drug/alcohol evaluation maybe required.

If the violation occurs on school grounds or school-sponsored transportation or at a school-sponsored event, 5530 Substance Abuse will also apply.

Prior to being investigated or apprehended for an offense involving the use of controlled substances, including steroids, alcohol or tobacco products; an athlete may voluntarily request assistance from school officials. In this event, there will be no disciplinary consequences imposed upon the student provided that the athlete meets with the school substance abuse counselor and follows his/her recommendation AND there are no subsequent violations of the Athletic Training Rules Policy.

### Appeal

The student athlete and/or parents have the right to appeal any suspensions imposed under the Athletic Training Rules Policy. All appeals shall be made to the Superintendent of Schools. Subsequent appeals shall be made to the Randolph Board of Education.

### 2431.3 PRACTICE AND PRE-SEASON HEAT-ACCLIMATION FOR INTERSCHOLASTIC ATHLETICS

The Board of Education adopts this Policy as a measure to protect the safety, health and welfare of pupils participating in school-sponsored interscholastic athletic programs. The Board believes practice and pre-season heat-acclimation guidelines for student-athletes will minimize injury and enhance the student-athlete's health, performance, and well-being.

For the purposes of this Policy, "practice time," means the time a player engages in physical activity. Warm-up, stretching, conditioning, weight training, and "cool-down" periods shall be calculated in practice time.

For the purposes of this Policy "walk-through" means practice time where no protective equipment or strenuous activity is permitted and only balls and field markers (cones) may be used.

The first five days of the Board approved pre-season practice shall consist of no more than three hours of practice time. This three-hour practice time during the first five days may be divided into multiple sessions, but total practice time shall not exceed three hours. Prevention and Treatment of Sports-Related  
Concussions and Head Injuries

M

### 2431.4 PREVENTION AND TREATMENT OF SPORTS-RELATED CONCUSSIONS AND HEAD INJURIES

A concussion is a traumatic brain injury caused by a direct or indirect blow to the head or body. In order to ensure the safety of pupils that participate in interscholastic athletics, it is imperative that student-athletes, coaches, and parents are educated about the nature and treatment of sports-related concussions and other head injuries. Allowing a student-athlete to return to play before recovering from a concussion increases the chance of a more serious brain injury.

Every school district that participates in interscholastic athletics is required to adopt a policy concerning the prevention and treatment of sports-related concussions and other head injuries among student-athletes in accordance with the provisions of N.J.S.A. 18A:40-41.1 et seq. For the purpose of this Policy, “interscholastic athletics” shall be Kindergarten through twelfth grade school-sponsored athletic programs where teams or individuals compete against teams or individuals from other schools or school districts.

The school district will adopt an Interscholastic Athletic Head Injury Training Program to be completed by the team or school physician, licensed athletic trainer(s) involved in the interscholastic athletic program, all staff members that coach an interscholastic sport, designated school nurses, and other appropriate school district personnel as designated by the Superintendent. This Training Program shall be in accordance with guidance provided by the New Jersey Department of Education and the requirements of N.J.S.A. 18A:40-41.2.

The Principal or designee shall distribute the New Jersey Department of Education Concussion and Head Injury Fact Sheet and Parent/Guardian Acknowledgement Form to every student-athlete who participates in interscholastic sports. The Principal or designee shall obtain a signed acknowledgement of the receipt of the Fact Sheet by the student-athlete’s parent and keep on file for future reference.

Prevention of a sports-related concussion and head injuries is an important component of the school district’s program. The school district may require pre-season baseline testing of all student-athletes before the student-athlete begins participation in an interscholastic athletic program.

Any student-athlete who exhibits the signs or symptoms of a sports-related concussion or other head injury during practice or competition shall be immediately removed from play and may not return to play that day. Emergency medical assistance shall be contacted when symptoms get

worse, loss of consciousness, direct neck pain associated with the injury, or any other sign the supervising school staff member determines emergency medical attention is needed. If available when the student-athlete is exhibiting signs or symptoms, the student-athlete will be evaluated by the school or team physician. The Principal or designee shall contact the student-athlete's parent and inform the parent of the suspected sports-related concussion or other head injury.

Possible signs of a concussion can be observed by any school staff member or the school or team physician. Any possible symptoms of a concussion can be reported by the student-athlete to: coaches; licensed athletic trainer; school or team physician; school nurse; and/or parent. The Principal or designee shall provide the student-athlete with Board of Education approved suggestions for management/medical checklist to provide to their parent and physician or other licensed healthcare professional trained in the evaluation and management of sports-related concussions and other head injuries.

A student-athlete who participates in interscholastic athletics and who sustains or is suspected of sustaining a concussion or other head injury shall be required to have a medical examination conducted by their physician or licensed health care provider. The student-athlete's physician or licensed health care provider shall be trained in the evaluation and management of concussion to determine the presence or absence of a sports-related concussion or head injury.

The student-athlete's physician or licensed health care provider must provide to the school district a written medical release/clearance for the student-athlete indicating when the student-athlete is able to return to the activity. The medical release/clearance must indicate the student-athlete is asymptomatic at rest and either may return to the interscholastic athletic activity because the injury was not a concussion or other head injury or may begin the district's graduated return to competition and practice protocol outlined in Regulation 2431.4. A medical release/clearance not in compliance with this Policy will not be accepted. The medical release/clearance must be reviewed and approved by the school or team physician.

The school district shall provide a copy of this Policy and Regulation 2431.4 to all youth sports team organizations that operate on school grounds. In accordance with the provisions of N.J.S.A. 18A:40-41.5, the school district shall not be liable for the injury or death of a person due to the action or inaction of persons employed by, or under contract with, a youth sports team organization that operates on school grounds, if the youth sports team organization provides the school district proof of an insurance policy in the amount of not less than \$50,000 per person, per occurrence insuring the youth sports team organization against liability for any bodily injury suffered by a person and a statement of compliance with the school district's Policy and Regulation 2431.4 - Prevention and Treatment of Sports-Related Concussions and Head Injuries.

School Sponsored Publications

Issues on which opposing points of view have been responsibly promoted may be introduced in a school sponsored publication provided that all proponents are given an equal opportunity to present their views.

In order to ascertain that school sponsored publications do not violate the standards established by this policy, the Board requires that each publication be submitted to the Principal for review in advance of its distribution. A publication that contains material in violation of this policy may not be distributed.

Where the Principal cannot show, within two school days, that the publication violates the prohibitions of this policy, the publication must be released for distribution. The Principal's determination, if any, that the publication violates this policy must be supported by references to specific material in the publication. Material cannot be censored merely because it is personally offensive to the reviewer or may tend to embarrass the Board. Pupils must be offered the opportunity to modify or delete any material that violates this policy.

The Board requires that the distribution of school publications take place only at the places and during the times established by regulation in order that the instructional program is not disrupted.

### 2464 GIFTED AND TALENTED PUPILS

The Board of Education recognizes its responsibility to identify gifted and talented pupils within the school district and to provide these pupils appropriate instructional adaptations and services. To that end, the Board directs each such pupil in the school district be identified and offered an appropriate educational program and services.

For purposes of this policy, gifted and talented pupils will be defined as those exceptionally able pupils who possess or demonstrate high levels of abilities, in one or more content areas, when compared to their chronological peers in the district and who require modification of their educational program if they are to achieve in accordance with their capabilities.

The Board will develop appropriate curricular and instructional modifications to be used for gifted and talented pupils indicating content, process, products and learning environments.

The Superintendent will develop procedures, using multiple measures, for an ongoing identification process and appropriate educational challenges for gifted and talented pupils initiated in Kindergarten and reviewed annually through grade twelve. The identification methodology will be developmentally appropriate, non-discriminatory and related to the programs and services offered by the district. These procedures will be reviewed annually.

The educational program offered to gifted and talented pupils will encourage and challenge them in the specific areas of their abilities, but will not replace the basic instructional program of the various grades of this district. The program offered to a gifted and talented pupil may be infused into the pupil's regular instructional program, provided that a written description of the infusion has been prepared and filed in the pupil's record.

Programs for the gifted and talented will be periodically evaluated for their continuing efficacy and adjusted accordingly.

Therefore, any reference to a pupil with a disability brought to the attention of the Board and/or any other potential public reference to a pupil with a disability will be through the use of a district-developed method of coding that would ensure a pupil's name or other labeling would not identify the pupil as a pupil with a disability. No textbook will be used in the district without Board of Education approval. The Superintendent will recommend textbooks to the Board and develop regulations for the selection of textbooks that include effective consultation with faculty members at appropriate levels.

In considering the approval of any proposed textbook, the Board may weigh its value as a learning tool; its suitability for the maturity level and educational accomplishment of the pupils who will be using the textbook; its freedom from bias based on race, ethnicity, gender, religion or marital status; its relationship to a course of study adopted by the Board; its relationship to a continuous, multi-grade program; its impact on community standards of taste; the manner by which it was selected; and its cost, appearance, and durability.

The District will periodically review and evaluate textbooks for usefulness and relevance and replace them as necessary to meet the needs of pupils and the curriculum. The Superintendent will maintain a list of all approved textbooks including copyright dates for each. The list will be available for the use of the faculty and administration and for the information of members of the Board and the public.

### 2531 USE OF COPYRIGHTED MATERIALS

The Board of Education encourages teaching staff members to make judicious use of appropriate printed materials, sound recording, televised programs, and computer software in the curriculum but recognizes that federal law, applicable to public school districts, protects the originators of those materials from the unauthorized use of their copyrighted works. The Board expressly forbids the use of school equipment for the illegal reproduction of copyrighted materials.

In order to define the fair and reasonable use that teaching staff members may make of copyrighted works for educational purposes without the permission of the copyright owner and to reduce the risk of copyright infringement, the Board directs the Superintendent to promulgate regulations regarding the copying and distribution of copyrighted materials for instructional purposes.

Computer software may be reproduced only for archival purposes or when copying is an essential step in the utilization of the program. Computer software should be purchased in sufficient quantity to permit its classroom use without simultaneous loading. Where appropriate, the Superintendent shall seek a licensing agreement with the software publisher that permits the reproduction of software, the simultaneous use of software, and the purchase of multiple copies of software at discount prices.

The Board of Education and Superintendent of Schools will work with the New Jersey Department of Education to comply with the requirements of the New Jersey Quality Single Accountability Continuum (QSAC) system in accordance with the provisions of N.J.A.C. 6A:30-1.1 et seq. QSAC is the New Jersey Department of Education monitoring and evaluating system for public school districts. Public school districts in New Jersey are evaluated in five key component areas of school effectiveness – instruction and program, personnel, fiscal management, operations, and governance – to determine the extent to which the school district is providing a thorough and efficient education.

Weighted quality performance indicators established by the Department of Education shall be used by the Commissioner of Education to assess school district performance and capacity during the comprehensive reviews pursuant to N.J.A.C. 6A:30-3.1 through 3.4, the in-depth evaluation pursuant to N.J.A.C. 6A:30-5.3, and monitoring of an approved QSAC district improvement plan pursuant to N.J.A.C. 6A:30-5.6.
